

## MANAGEMENT OF MEDICAL EMERGENCIES IN A DENTAL CLINIC

This online independent self-study course has been developed for dental settings to provide evidence based information on management of common medical emergencies in a dental clinic. The course work is designed by General Dentist with over 25 years of experience in general dentistry.

### Upon completion of this course, you will be able to:

- Describe emergency preventive procedures and preparedness in the dental office.
- Explain the importance of obtaining a pretreatment health history from each patient.
- Describe the procedure for obtaining a blood pressure, pulse, respirations, and temperature.
- Demonstrate the initial sequence of patient assessment in an emergency.
- Identify how stress and anxiety can lead to medical emergencies.
- Recognize the signs or symptoms of impending or developing emergencies.
- List the general steps to be taken when a medical emergency arises in a dental office.
- Identify the type of emergency when given a patient situation and describe the necessary emergency care.
- Identify the contents of an emergency kit.
- Describe the medico-legal implications of medical emergencies.
