

ORAL LICHEN PLANUS

Oral lichen planus is an immune-mediated condition that can cause inflammation and erosion of the oral mucosa. The purpose of this course is to provide dental professionals with the information necessary to identify, assess, and treat erosive and ulcerative oral lesions, how to implement strategies for managing oral ulcers associated with the disease.

Upon completion of this course, you will be able to learn:

- Understand the etiology and pathogenesis of oral lichen planus
- Discuss the clinical presentation and list different forms of lichen planus
- Discuss diagnosing methods and treatment options
- Discuss the differential diagnosis of lichen planus
- Describe the skin lesions associated with lichen planus
- Recommend life style changes and patient education
