

## TRACHEOSTOMY : NURSING CARE

This online independent study module is approved by the California, Florida & District of Columbia Nursing Boards. This online training module has been developed to provide the most current recommendation and guidelines on tracheostomy nursing care in healthcare settings.

### Upon completion of this course, you will be able to:

- Describe the indications/reasons for tracheotomy.
- Describe the trachostomy procedures
- Define the risks associated with the different tracheotomy procedures.
- Describe the contraindications of tracheotomy procedures.
- List the most common complications likely to arise from temporary and long-term tracheostomies.
- Identify tracheostomy tube types currently in use.
- Describe components of nursing care & home care for a patient with a tracheostomy.
